Dear Employer:

We have determined that your prescription drug coverage with Blue Cross and Blue Shield of Kansas is "creditable" for the purpose of Medicare Part D. Coverage is deemed creditable if the benefits provided are at least equal to or better than the standard Medicare Part D coverage.

Below is an illustration showing the standard Medicare Part D benefit beginning in January 2014. Prescription Drug Plans (PDPs) may also elect to provide differently designed but at least actuarially equivalent prescription benefit options. **The annual enrollment period for Medicare Part D is October 15 through December 7.**

	Retiree pays \$310 deductible		1
\$310	Retiree pays 25%	Medicare Benefit - 75%	2
\$2,850	Retiree pays 100%		3
\$6,455		Medicare Benefit - 95%	4
Retiree pays 5%→			

Additional information regarding creditable coverage guidance may be found by visiting the Center for Medicare and Medicaid Services site at www.cms.hhs.gov/creditablecoverage.

We appreciate your business and the opportunity to assist you with sharing this important information with your Medicare eligible employees and/or retirees.

Sincerely,

Blue Cross and Blue Shield of Kansas
